# COMMITTEE MAKES **GOOD SELECTION**

President Sullivan of the A. A. U. Is Well Pleased With Athletes.

YANKEES CLAIM FOUR OF THE OLYMPIC EVENTS

Will Be Weak in Distance Runs; Pilgrim-Bonhag Cause Comment.

NEW YORK, June 9 .- "We have done best we know how," said J. E. Sulvan, chairman of the selection commitet referring to the committee's work in sing men to represent America in the mple games at London. "Not only Oymple games at London. "Not only take we picked 'dead sure,' but we have taken as second strings and for other pints, every man we consider had a cance to score. As close as we can figure it now, there are no passengers on or team. Had we more money we would have taken a few more men, but I think I study of the list will show we have some our duty pretty well."

Events We Claim.

Four of the events which America pens to have at her mercy are the 120-ind hurdles, pole vault, 15-pound hism-grand 15-pound shot. In each the first, scool and third place should fall to the Inkeer. McGrath and Flanagan are selected for is bammer throwing, and their records of more than 170 feet overshadows any all world thrower. S. P. Gillis, who is asy in England, will be nominated as the third string. Rose, Coe and Gartels, its men for the shot, have beaten forty-sit feet, a distance which will shut out all foreign opposition. With Dray, Giller and Nelson of Yale in the pole vault, america has a mortgage on the points. From the conference college meet at Islango, a real good man was unearthed for the sprints, in W. W. May of Illinois alversity. He ran the 100 yards in \$ 4-5 seconds and on form is better than any man in the East. It is true that Rector has a good heat in the 100 meters at Philadephia, but his work in the final proved that he is a weak repeater, and that fault hay be vital in England, where so many inia will be necessary.

#### CHAMPION BICYCLE RIDER ARRIVES HERE

Frank Mayer, champion bicycle rider of Germany, arrived Tuesday evening, coming straight from Parls without a stopover. Mayer is a big man, weighing about 199 pounds, and appears a trifle fleshy for a rider, but his past performances are a matter of history and he is considered one of the best sprinters in the world. He is matched against A. J. Clarke for an early meet at Saltair by Manager Chapman. Clarke is said to be the fast man here at the present time, but as he has not been riding little is known of his ability outside of the training camp. Clarke is confident he will beat Mayer and the German is just as confident that he can win. Mayer will start training Wednesday and says that he is in excellent condition and a few days' riding here will place him right.

HAMILTON, Bermuda, June 9.—The Allsa Craig, owned by James Craig of New York, which won last year's ocean race from Gravesend Bay to Hamilton race from Gravesend Bay to Hamilton harbor, was first across the finish line in this year's contest, having made the voyage in 66 hours 30 minutes and 40 seconds. Whether she has won the race cannot yet he stated, as Irene II., owned by S. W. Granberry of New York, her opponent, has more than twenty hours time allowance. Up to sundown there was no trace of Irene II. on the horizon, but she may come in during the night and fluish within her allowance.

The Alisa Craig took something over an hour and a half more time to cover the course than she did a year ago, this being due to a heavy head sea.

COMMITTEE DECIDES

ON AUTO RACE DATE

NEW YORK, June 2—The contest committee of the Automobile Club of America has decided on the date of its race for the grand prize offered for the cond place.

The prettiest race ever seen on the track was the three-mile lap handican amateur. Twenty-six starters went off their marks, and the race was concluded without a single fall. It was a pretty sight as the big bunch of riders swung around the track, and several times it seemed as if they would be unable to hold out to the finish through the unstandings of some rider. McCormack won the race in a two-lap sprint, with Giles beating out Diefenbacher for second place. race for the grand prize offered for in- oud place. ternational competition under the Ostend ternational competition under the Ostend conference rules, and settled all other details of the contest. The entry blanks for the race will be issued within a few days. The date selected was changed from that spreed upon between the club and the Savannah Automobile club, which is to furnish the court for the international race, and until it can be submitted to the Savannah club for its approval, no announcement will be made of it. It is expected that the official announcement can be made this afternoon, as no objection from Savannah is anticipated.

ed with poisonous germs or some old blood taint which corrupts and pollutes the circulation. Nothing is more trying than a non-healing, chronic old ulcer. The very fact that it resists all external applications, and ordinary treatments, is good reason for alarm, for the same germ which produces cancerous ulcers is back of every old sore, and especially is this true if the trouble be from any inherited taint. Surface treatment cannot reach the trouble—the blood is at fault and must be purified before a cure can be hoped for. In S. S. S. will be found a remedy for sores and ulcers of every kind, It is a perfect blood purifier-one that goes directly into the circulation, and promptly cleanses it of all impurities, poisons and taints. The ulcer can never heal while the blood discharges into it the noxious matter with which it is infected, but when S. S. S. has rid the blood of this cause and freshened and built up the circulation the sore will heal naturally, and of its own accord. S. S. S. begins at the bottom and heals the place as it should be healed and makes a permanent and lasting cure. Book on Sores and Ulcers and any special medical advice desired will be sent free to all who write.

## **OGDEN COPS WALLOP SALT LAKERS** BY THE POLICE REPORTER ==

Salt Lake, 5; Ogden, 8.

Ouch! Of course it hurts, if you are from Salt Lake. If you don't believe it the best thing for you is experience.

Despite the handicap of having three policemen in the lineup. Dad Gimlin's leaguers came down from Ogden Tucsday afternoon purporting to be the junction city police bareball team and triumed the fur off the Salt Lake police, in the annual game of baseball between the Ogden and Salt Lake police, in the annual game of baseball between the Ogden and Salt Lake police, in the annual game of baseball between the Ogden and Salt Lake police, in the annual game of baseball between the Ogden and Salt Lake police, in the annual game of baseball between the Ogden scored two runs in the first in line of the salt Lake police, in the salt Lake City police forces at Walker's field, and left them maked and whimporing upon the sward.

Heads and arms played an important role in the scoring for Dud Gimlin's—beg pardon, the Ogden police team. Both fob Golding and Special Followman-Forme-Day Harrison, siah artiets for the local police, were a trifle wild and hit one or two Ogden batters, who through the conjunction of errors on the part of Sait Lake and fasty decisions by the umpire, Dick Riebards, scored. But the general result was not affected by those things and there were no sore spots-tiguratively speaking only—after the game.

Ogden's league pitcher was Greek to Sait Lake most of the time, especially when hits meant runs, and although his general appearance and actions lead to the bellef that possibly he has not filed out the minds eye picture his fond parents had when they bestewed the artistic but incongruous name of Ambroze upon him, this will be overlooked if he con-

Then you take larger doses. Else you take the physic more frequently. That is because the physic is irritating. The bowel lining grows hard, just as the skin becomes calloused by constant irritation.

Calloused bowels can't perform their natural functions. The result is chronic constipation-the need of constant help.

Such physic belongs to an ancient era. Modern physicians have learned its effects and displaced it.

They row help the bowels gently and naturally. They use vegetables instead of minerals.
